OUR APPROACH AND THE ENVIRONMENT

ECOLABELLING

An ecolabel identifies products that have been measured and certified against established environmental leadership criteria. Ecolabelling helps individuals, corporations and governments make informed purchasing choices that reduce their ecological footprint.

Companies whose products and services have been certified by various ecolabelling programs are considered as being less harmful to the environment while still meeting or exceeding applicable safety or performance standards. Of specific interest to the JanSan Industry are the following standards and certifications currently in effect.

CERTIFICATIONS

GREEN SEAL

Green Seal is an American non-profit environmental labelling organization that awards a "Green Seal of Approval" to products found to cause significantly less harm to the environment than other similar products.

ECOLOGO

EcoLogo is North America's most widely recognized and respected certification of environmental leadership. By setting standards and certifying products in more than 120 categories, EcoLogo helps identify, trust, buy, and sell environmentally preferable ("green") goods and services.

WASTE MANAGEMENT AND RECYCLING

In accordance with the program, our purpose is to promote and to prevent waste of potentially useful materials, by reducing the need for conventional waste disposal. Our goal is to decrease our environmental footprint by reducing our waste and developing treatment, recycling and recovery solutions.

LEED

LEED® Canada for New Construction and Major Renovations version 1.0 is an adaptation of the US Green Building Council's (USGBC) Leadership in Energy and Environmental Design Green Building Rating System (LEED®), tailored specifically for Canadian climates, construction practices and regulations.

EKO

Certification attributed to certain INO Solutions professional hygiene solutions attesting that they are ecological and as such, safer for the environment.

SUITABLE FOR FOOD PLANT USE IN CANADA

Products that have this logo are suitable for food plant use in Canada. The Canadian agency develops and delivers programs and services designed to protect Canadians from preventable food safety hazards and to ensure that food safety emergencies are effectively managed.

USEFUL FEATURES

01

RELATED PRODUCT REFERENCE

Look for this symbol to easily identify and locate related or complementary items.

WASTE CONTAINERS
ALSO AVAILABLE!
PLEASE REFER
TO P. 230

02

EDUCATIONAL RESOURCES

Detailed statistics, data and information of particular interest to the JanSan industry are identified by this symbol:

Did you know that based on a recent study*, the most unsanitary location in your office is your workstation?

OFFICE TOUCH POINTS	AVERAGE BACTERIA COUNT*
Phone	25 127
Desktop	20 961
Keyboard	3295
Mouse	1676
Fax Machine	301
Copy Machine	69

03

RATING SYMBOLS

The rating symbols will help you navigate the 2000+ products within; to easily identify the lowest price, best value or premium items.

As part of one of the most influential JanSan groups in Canada, we are able to negotiate the best pricing and pass it on to you.

Our commitment is to provide our customers with the most complete package of green-friendly and efficient products at the best value. Look for this symbol for great value.

When performance and efficiency are major factors in your product selection, look for this symbol denoting the best quality.

04

VIDEOS AND TIPS

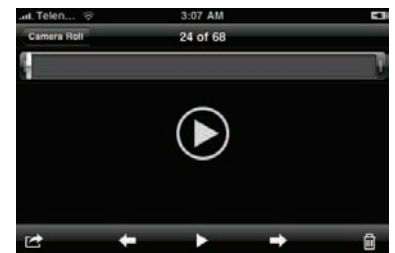

With your smartphone and any Barcode Reader App, you have direct access to many educational materials, including videos and tips, so you can learn more about the product features and benefits.

1. Locate the code

2. With your smartphone, scan the QR code.

3. Watch the video.

WWW.INOSOLUTIONS.NET

COMPLEMENTARY TOOLS

WEB SITE

Our web site is developed with the latest technology, offering a user-friendly and informative experience featuring a variety of strategic advantages. It includes the following elements:

FAQ

A goldmine of information available at your fingertips. Over 3000 answers to frequently asked questions regarding subjects such as Green cleaning, floor and carpet care, general homecare, health and disinfection and other miscellaneous subjects.

GLOSSARY

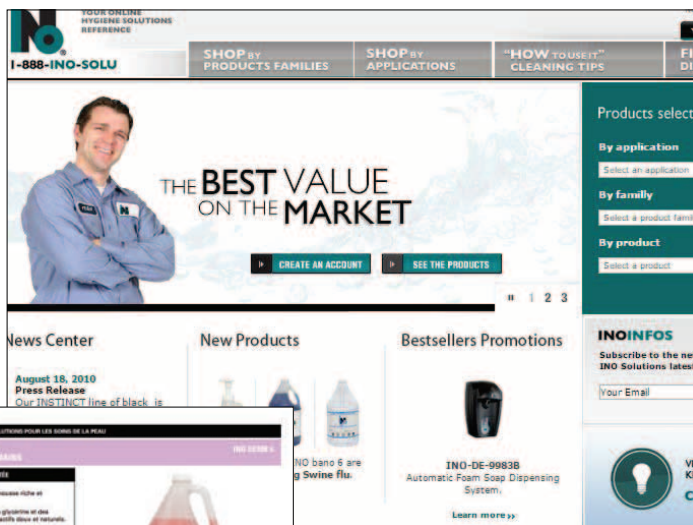

Uncertain of the meaning of a certain word? Our online glossary contains definitions, in alphabetical order, of over a hundred words commonly used in the sanitation industry.

DETAILED PRODUCT DATASHEET

For every INO Solutions product, an online datasheet is available in printer friendly PDF format. Every datasheet includes a picture of the product, as well as its information and characteristics.

MSDS

Material Safety datasheets for every chemical and biotechnological product are available online.

▶ FOOD PROCESSING

Thorough hand washing and drying to remove harmful bacteria from workers hands is critical. Keeping work areas and machinery clean is as mission critical as performing on-going maintenance and quality control. In the food processing industry, wiping and cleaning tasks are varied but the requirement for effective, hygiene-focused solutions remains constant. Using the Tork wiper and dispenser range ensures you can tackle these tasks with confidence.

WHY CHOOSE INO SOLUTIONS FOAMING HAND SOAP?

- 1.** The foaming soap generated has 20 times the volume of traditional soap. Therefore, the user has the perception of having more soap in their hands.
- 2.** The foaming soap has no contact with the dispenser. Cross contamination is reduced.
- 3.** The cartridges are 100 % recyclable. You get the opportunity to go green by choosing a foaming soap certified as an ecological product that contains no allergen.
- 4.** The foaming soap minimizes water wastage because it is easy to rinse. Using a foaming soap can reduce up to 50 % of waste and water usage.

DISINFECTANT CLEANER

IT IS COMMON PRACTICE **TO INTERCHANGE THE WORDS DISINFECTION AND SANITIZATION**, DESPITE THE FACT THAT BOTH HAVE THEIR OWN TECHNICAL CHARACTERISTICS THAT ARE WELL DEFINED. IT IS CONSEQUENTLY IMPORTANT TO UNDERSTAND THEIR DISTINCTIONS.

INO EKO 9 NEUTRAL DISINFECTANT

SUITABLE FOR FOOD PLANT USE IN CANADA.

Multi-purpose concentrated germicidal, fungicidal, virucidal detergent and deodorant is effective in hard water up to 400 ppm plus 5 % organic serum. Disinfects, cleans and deodorizes in one labour-saving step.

D.I.N.:
02282569

DILUTION RATE
1:64

CODE
INO-EK9-4 4 L

DISINFECTION

The process of disinfection means to eliminate all pathogenic micro-organisms (bacteria, viruses, fungi, bacterial endospores) at 99.99 % found on inanimate surfaces. When disinfecting, you lower the risk of a potential infection caused by the microorganisms since you reduce the number of pathogenic bacteria. This action does not necessarily eliminate all the microorganisms, but reduces them to a level where the pathogenic bacteria can no longer initiate infection.

SANITIZATION

Agents used for sanitization are usually used in destroying the microorganisms on surfaces in order to make them sufficiently safe to be used. This is one of the key aspects that you should understand when looking at disinfection vs sanitization. Unlike the disinfectant, a sanitizer does not necessarily eliminate the pathogenic microorganisms. Consequently, compared to a sanitizer, a disinfectant is essentially used to kill pathogenic bacteria.

DISINFECTANT CLEANER

INO BANO 6 CLEANER DEGREASER DISINFECTANT

SUITABLE FOR FOOD PLANT USE IN CANADA.

For use in health care facilities and/or food processing plants. The INO Bano Cleaner Degreaser Disinfectant can be used in emergency rooms, operating rooms, washrooms, patient rooms, rest/eating areas, food preparation areas, food processing and packaging lines. DILUTION RATES

Concentrated cleaning solutions can lead to savings of up to 35 % on direct product costs while reducing the space required to store them.

WHAT IS PRECYCLING?

Recycling is a good way to reduce your impact on the environment, but it's even better to eliminate the need for recycling. Precycling aims to reduce waste to a minimum. Using professional concentrated cleaning products as a merger would reduce gasoline consumption related to transportation, storage costs and also enables a substantial savings in plastic containers.

A close-up, low-angle shot of a blue industrial floor buffer machine. The machine's large, curved blue housing dominates the foreground, with a black control panel on top. In the background, a warehouse aisle with shelves of products is visible, slightly out of focus. The machine's large black wheels and a smaller front wheel are visible at the bottom of the frame.

PRODUCTIVITY THROUGH INNOVATION

Choosing the right equipment that is suitable for different cleaning needs is synonymous with efficiency. Indeed, the choice of equipment is crucial. It involves gathering all the relevant information and looking for the best alternatives that are available. In order to facilitate the selection of equipment, we carry a wide selection of top-brand equipment that will save you time, increase the productivity while reducing labour cost and most importantly, get better results!

FLOOR SCRUBBERS

FOCUS II BOOST 28", RIDER

One of the most important benefits of BOOST is the chemically-free removal of floor finish! That's right, using only water. No longer will you be bothered by chemical odours, or slip and fall hazards. Not to mention, the savings in chemicals!

Benefits of using BOOST Technology:

- 70% less water consumption;
- 40% increase in pad life;
- Close edge cleaning reduces secondary manual labour!

DISHWASHERS

CMA-180 HIGH TEMPERATURE

There are many features to the 60 Rack/Hr Door-Type Corner Dishwasher (CMA-180CB) by CMA Dishmachines that make it ideal for medium-sized food service establishments. For starters, it uses hot water to sanitize dishes, so it won't leave a chemical residue, like low-temp machines. Also, it comes with a built-in booster heater that raises the incoming water temperature to the proper range for high-temp sanitization (180°-195°F).

- 60 racks / 240 covers per hour
- Uses only .96 gallons of water per cycle
- Built-in chemical resistant industrial 5 KW heater
- Auto start/stop makes operation safe and easy
- Specially designed pull-pins allow wash arms to be easily removed for cleaning

CMA-180UC HIGH TEMPERATURE

The 30 Rack/Hr Undercounter Dishwasher (CMA-180-UC) from CMA Dishmachines is ideal for smaller commercial kitchens that serve less than 50 meals an hour. This comes with a built-in booster heater to assure that the rinse water is at the required 180 °F. The unit also features an automatic soil purging system that traps food scraps in a separate debris tray, which prevent it from clogging the drain.

- High temperature under the counter dishwasher
- 30 racks / 120 covers per hour
- Automatic soil purging system
- Upper and lower rotating wash and rinse arms
- Large 14 ½" height clearance
- Built-in booster heater
- Low water consumption

CHEMICAL DISPENSER FOR WAREWASH

KNIGHT MICRO PRO II

The Micro Pro II warewash systems provide the ultimate in versatility and convenience. The tilt front and cover makes setting and servicing the unit quick and easy. Having choices of probe/probeless operation, high and low range concentration settings, rinse delay, rinse limit, dry detergent, liquid detergent, and sanitizer pumps makes the Micro Pro II the universal dispenser. Mount it on the wall or on top of the machine by rotating the pumps and adding the two suction cup feet provided.

- Compact, Stainless Steel Case with Splash Guard Plastic Cover
- Tilt-Up Circuit Board Adjustment
- Fold Down Front Pump Panel
- Built In Transformer
- - 115, 208 or 230 VAC 50/60 HZ to 24 VAC
- Cover Mounted Rinse & Sani Prime Switches
- Easy to Set Dual Concentration Range
- Probe or Probeless Operation
- Long Life Rinse Motor
- Up to 3,000 Hours
- Long Life Probe Circuit
- Rinse Saver Operations
- Proven Long Life Squeeze Tubes
- Louder Alarm with Volume Control
- Custom Labeling Available

DILUTION SYSTEMS

PLEASE CONTACT YOUR DISTRIBUTOR TO LEARN MORE ABOUT OUR ENTIRE LINE OF PRODUCTS

RTD™ READY TO DISPENSE

- No moving parts
- No maintenance
- No investment in equipment
- Disposable containers
- Reduces chemical waste and over use
- Minimal training
- Improves safety
- Improves productivity
- Improves accuracy
- Lowers costs
- Exclusive to Diversey

J-FILL™

- QuattroSelect dispensing system allows you to choose from four different products with the turn of a dial
- Easy to identify product window
- Smartvalve technology automatically chooses correct flow rate in one operation
- Fill buckets, scrubbers or bottles remotely or from a central location accurately & efficiently.
- Spill-Tite cartridges leak proof design virtually eliminates chemical exposure
- Exclusive to Diversey

AVAILABLE ITEMS*

DIV-3764735 J-Fill Quattro Select

COMMAND CENTER 4™

- Dispenses up to four different products
- Products and system are numbered and color-coded for simple identification and easy training
- Dispenses ready-to-use product into both bottles and buckets
- Patented dispensing technology ensures that products are dispensed accurately and consistently
- Uses super-concentrated products, which drives less inventory/packaging waste
- Eliminates the need for manual-mixing, which can cause over diluting
- Exclusive to Diversey

AVAILABLE ITEMS*

BROOMS AND DUST PANS

COARSENESS OF THE FIBRES

Fibre end-caps are colour coded to indicate specific use and range from fine (green) to x-coarse (red). Typically, X-coarse and coarse brooms are used outdoors. The fine brooms have flanged fibres for dust control when sweeping indoors.

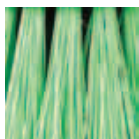

PUSH BROOM FINE SWEEP

AG Professional fine sweep brooms are engineered for sweeping dust and dirt on smooth indoor surfaces such as sealed hardwood, concrete, and smooth vinyl.

TOILET BOWL BRUSHES

TOILET BOWL BRUSH

CODE	DESCRIPTION
ATL-906	Acrylan toilet bowl swabs are designed to be used with acid bowl cleaners. Their soft swabs don't scrub, but instead release acid solution quickly onto the surface of the bowl to eliminate dripping or splashing.
ATL-908	Acrylan toilet bowl swabs are specifically designed to be used with acid bowl cleaners. The material of the swab releases liquid quickly to eliminate dripping and splashing. These bowl swabs feature a cone-shaped hood that slides down the handle to cover the acid-covered swab after use, allowing the user to wring it safely.
ATL-25	This toilet/urinal brush is filled with an aggressive polypropylene fibre and filled in a sanitary and sturdy poly foam block. Unique design makes cleaning urinals or under toilet bowl rims easy. Not recommended for use with acid.
ATL-823	The most popular industrial toilet bowl/urinal brush, with medium-coarse fibres for good scrubbing action. Although the fibres are acid-resistant, we recommend using a soft bowl swab for the application of acid cleaners because the stiffer bristles of this brush have a flicking action that may inadvertently splash the user with acid or caustic solution.

BOWL BRUSH CADDY

CODE	DESCRIPTION
ATL-816	A white plastic bowl brush caddy sits sturdily on a wide base with non-skid bottom, for convenient storage of our round bowl brush (ATL-823).
ATL-910	This white plastic caddy safely stores our Acrylan bowl swabs and also has an adjustable holder for storage of the bottle of cleaning chemical.

TOILET PLUNGER

CODE	DESCRIPTION
ATL-1150	This professional-grade plunger has a massive capacity black rubber cup that provides a snug fit even in oddly-shaped toilet bowls. Funnel can be retracted for use in flat sinks, wash basins and tubs. Funnel is 5" high and is attached to a 20" wooden handle.

VEHICLE BRUSHES

VEHICLE BRUSH POLY-X, 10"

Filled with X-shaped polyester fibre for maximum water-holding capabilities and durability. Vinyl bumper protects surfaces from being scratched. Ideal as a vehicle brush or window brush.

CODE
ATL-318

VEHICLE BRUSH ACID-RESISTANT, 10"

10" structural foam flow-through block is heavily filled with medium stiff, acid-resistant, polypropylene fibre. Excellent for cleaning large areas on industrial vehicles such as cement trucks. Use with an acid resistant handle or any standard threaded or tapered handle, or extension pole.

CODE
ATL-315

VEHICLE BRUSH SYNTHETIC HORSEHAIR, 10"

The 10" foam block is densely filled with synthetic horsehair fibre. Synthetic horsehair is crimped to hold large amounts of water and softly move across delicate surfaces to remove grime and soil. Use any standard threaded or tapered handle. Can also be used with an extension pole or waterfed pole.

SCRUB BRUSHES

DECK BRUSH 11", WITH SQUEEGEE FOR SMALLER AREA

The 11" Union deck brush with squeegee is perfect for light to heavy scrubbing of smaller floor surfaces and uneven, wood or grouted flooring.

CODE
ATL-336

FLOOR BRUSH SWIVEL SCRUB, GENERAL PURPOSE

This sturdily-constructed general purpose scrub brush can be attached to any standard threaded handle. Its crimped, stiff synthetic fibres make short work of scrubbing large surfaces, and the swivel connector allows ease of maneuvering in corners or around obstacles.

CODE
ATL-5301 Beige
ATL-5311 Navy blue

FLOOR BRUSH 10", DUAL LEVEL FLOOR & TILE SCRUBS

This 10" dual level scrub brush is filled with stiff blue polypropylene fibres. A V-shaped block allows the bristles to clean in corners effectively. This brush can be used with either a standard threaded or flow through fountain handle.

CODE
ATL-5317

FLOOR BRUSH GROUT & CREVICE

Grout and Crevice Brush Upsweep handle works the black nylon bristles into grout and crevices. Excellent to remove dirt, grime and residue.

CODE
ATL-5352

SCRUB BRUSHES

UTILITY SCRUB

Short or long handle, all-natural or synthetic, these brushes have medium to coarse stiffness depending upon fibre fill. Natural fibres work well in high heat applications and the all-synthetic brushes offer good chemical and moisture resistance.

NATURAL		
CODE	DESCRIPTION	SIZE
ATL-381	Tampico, Medium action	20"
ATL-383	Tampico, Medium action	9"
ATL-398	Tampico/Palmyra, Coarse action	20"
ATL-400	Tampico/Palmyra, Coarse action	9"

The structure of natural fibre is open, meaning it absorbs water readily and performs well where heat may be present. These all natural materials are also biodegradable.

SYNTHETIC		
CODE	DESCRIPTION	SIZE
ATL-838	Synthetic, Blue, Medium action	20"
ATL-818	Synthetic, Blue, Medium action	9"
ATL-848	Synthetic, White, Coarse action	20"
ATL-828	Synthetic, White Coarse action	9"

The structure of synthetic fibres is closed, meaning it absorbs very little water. The synthetic polypropylene utility brushes are a wood-free sanitary tool. **These brushes can be used in the food service industry**

FLOOR SQUEEGEES

INDUSTRIAL FLOOR SQUEEGEE

This industrial floor squeegee features a rust-resistant, lightweight, one-piece aluminum channel. Stainless steel self-tapping screws hold the blade firmly in place.

 ATL-52506 54"
 ATL-52512 60"

AUTOMOTIVE FLOOR SQUEEGEE

The red colour of our automotive floor squeegee distinguishes it from other conventional squeegees, reminding the user that the thermoplastic elastomer blade is appropriate for use with oil and solvents. One piece, rust-resistant aluminum channel is heavy duty.

CODE

FLOOR SQUEEGEES

ALL PURPOSE PVC FLOOR SQUEEGEE

The flexible white thermoplastic blade of our all-purpose squeegee floats easily over smooth or textured floor surfaces with less chatter. One piece, rust-resistant aluminum channel. For general use (not oil or solvent-resistant).

CODE

ATL-45418	18"
ATL-45424	24"

 ATL-52512 60"

MOSS RUBBER FLOOR SQUEEGEE

Moss rubber is the preferred material for floor squeegees that must work on uneven surfaces. The rubber's sponge-like consistency creates a seal between blade and floor, even on rough surfaces such as tile, slate or brick, allowing the user to move large quantities of liquid with ease.

SCRAPERS

PUTTY KNIFE

Nylon handle will resist the strongest impacts. Riveted, full tang blade offers durability and reliability. High carbon steel provides maximum durability in a stiff blade.

CODE

ATL-201 Black, 1 1/2"
ATL-202 Yellow 1 3/16"

METAL RAZOR SCRAPER 1 1/2"

Razor scraper is designed for removing paint and labels from glass and other hard, smooth surfaces.

CODE

ATL-205
ATL-210+ Metal scraper blades (100)

PLASTIC RAZOR SCRAPER 1 1/2"

Ideal for removing paint and labels from glass and other hard, smooth surfaces. All-plastic construction with push button operated retractable blade. Uses standard, single edge razor blades.

CODE

ATL-206
ATL-210+ Metal scraper blades (100)

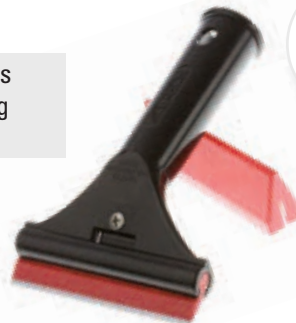

SCRAPEMASTER

Scrapemaster's 4" double-sided stainless steel blades make easy work of removing dried-on residue from any glass surface.

CODE

ATL-37500 Scrapemaster
ATL-37510 Metal scraper blades (10)

TAPERED WOOD HANDLE
ATL-2465

SUPER SCRAPER

This rugged scraper features blades with both a sharp and a dull side. Use the sharp edge to scrape windows and the dull side to remove dried on gunk from flooring without scratching the surface. This scraper is ideal for high-level scraping as it can be attached to a tapered handle to reach the highest points of tall windows.

SCRAPERS

HEAVY DUTY FLOOR SCRAPER WITH 48" LONG HANDLE

Remove gum, tape or other dried-on gunk with this heavy-duty long-handled floor scraper. Blade is 4" wide and will not gouge or scratch floors. Angled head is ergonomically correct and the 48" handle means no stooping or kneeling to remove residue from floors.
